

Relocation Program

Relocation Program, on the other hand, is a one-stop program for investors looking to relocate their businesses to Thailand

This is a brand-new program to promote a holistic relocation of the entire business operations to Thailand, from manufacturing activities to regional headquarters to R&D centers

The program has **2 sub-programs** for new investment promotion applications in manufacturing projects as well as investment projects in existing manufacturing already enjoying incentives under the A category (A1+ A1 A2)

Manufacturing Projects

1 New investment applications

Eligibility

Having applied for both a manufacturing project and an International Business Center (IBC)

Having applied for the benefits by the end of 2023

2 Investment applications in existing A category

Eligibility

Having applied for an International Business Center (IBC)

Having applied for the benefits by the end of 2023

Incentives

Approved projects will receive a set of incentives as well as additional incentives for manufacturing projects, including **non-tax incentives**

1 Projects comprising both the manufacturing and the IBC

Standard incentives based on manufacturing project criteria as well as **3 additional years of CIT exemption** (total exemption must not exceed 8 years) and other non-tax incentives

2 Projects comprising manufacturing, IBC, and an R&D center

Standard incentives based on manufacturing project criteria as well as **5 additional years of CIT exemption** (total exemption must not exceed 8 years) and other non-tax incentives
